

# W 201

Code No.: T0056105699N

## Benefits

- 200 W, 230 V
- Complete with soldering tip CT2 F7 and safety rest
- Magnastat controlled

In addition we recommend:

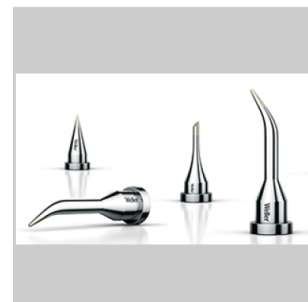

Fume extraction devices

Preheating plates

Cleaning Consumables

Soldering Tips

### Technical Data

Active Tip Heating element technology	---
Power Response Heating element technology	---
Silver Line Heating element technology	---
Voltage	230 V AC
Heating output	200 W
Tip family	CT2 (LT, PT)
Power unit	---
WX compatible	---
Temperature range °C	370°C
Temperature range °F	698°F
Heat-up time	tbd
Safety rest	---
Safety rest (optional)	---
Barrel	---
Integrated tip extraction	---
